

Winter Warm-Up Promotion

Terms & Conditions

Transbuild Limited | 250b Sutton Road, Drury, Auckland | 0800 460 307 |
enquiries@transbuild.co.nz

Promoter: Transbuild Limited, 250b Sutton Road, Drury, Auckland (“Transbuild”).

Promotional Period: From 8:00am NZST, Thursday 28 May 2026 until 11:59pm NZST, Friday 31 July 2026 (the “Promotional Period”).

Only Home Starter Packs signed up to and paid for from 8:00am NZST on Thursday 28 May 2026 onwards qualify for this Promotion. Home Starter Pack agreements entered into or paid for prior to this date are not eligible for the Winter Warm-Up bonus under any circumstances. No backdating, retrospective application, or exceptions will be granted.

1. Eligibility

The Winter Warm-Up Promotion (the “Promotion”) is open to New Zealand residents aged 18 years or over who are purchasing a new transportable home from Transbuild. To qualify, the customer must:

- sign up to a Transbuild Home Starter Pack and pay the \$5,000 (incl. GST) deposit on or after Thursday 28 May 2026 and on or before Friday 31 July 2026; and
- sign a Transbuild Master Build Contract within two (2) calendar months of their Home Starter Pack signup date.

2. The Offer

Eligible customers may choose ONE of the following three bonus items (the “Bonus”):

(a) A stone benchtop upgrade: Trendstone Quartz in your choice of colour as per our Standard Specifications & Upgrades Guide.

(b) A Panasonic heatpump for the main living area of the home.

The specific model is plan-specific and will be confirmed by Transbuild from the following Panasonic Aero Series range:

- Aero Series Z42 (4–5kW)
- Aero Series Z50 (5–6kW)
- Aero Series Z60 (6–7kW)

Or

(c) A built-in entertainment unit: Laminex Melteca Cabinetry in your choice of colour as per our Standard Specifications & Upgrades Guide.

The customer must choose one Bonus item only. The Bonus items cannot be combined, split, or part-claimed.

Bonus item specifications, materials, supply, and installation will be determined by Transbuild and scaled to suit the size, layout, and design of the customer’s chosen plan. The Bonus is provided as the item itself; it has no stated dollar value, is not transferable for cash, and cannot be exchanged for any other product, service, or discount.

3. Per-Build Application

Where a single customer signs up to build two (2) or more dwellings within the Promotional Period, the Bonus may be claimed once per qualifying build (i.e. one Bonus per Home Starter Pack and Master Build Contract).

4. Plan & Promotion Exclusions

This Promotion does not apply to:

- the **Hector 70** plan, which is sold under its own separate promotional terms and is expressly excluded from the Winter Warm-Up Promotion; and
- any build being purchased under another active Transbuild promotion, discount, or offer.

The Winter Warm-Up Bonus cannot be combined or stacked with any other Transbuild promotion, discount, or offer unless expressly stated in writing by Transbuild.

5. General Conditions

- The Bonus has no cash value and cannot be exchanged, redeemed for cash, or applied as a discount against the base build price.
- The Bonus is non-transferable.
- If the customer does not progress to a signed Master Build Contract within the required two (2) month window, the Bonus is forfeited.
- Standard Home Starter Pack and Master Build Contract terms and conditions apply in full.
- Transbuild reserves the right to substitute the Bonus item with one of equal or greater value where supply, stock, or availability requires.
- Transbuild reserves the right to amend, suspend, or withdraw the Promotion at any time, provided that Bonus entitlements already locked in via a Home Starter Pack signed within the Promotional Period will be honoured.
- By participating, the customer agrees to be bound by these Terms & Conditions.

6. How to Claim

The customer's Bonus selection is made at Master Build Contract stage. The customer's Home Consultant will confirm the specifications of the chosen Bonus item and how it will be incorporated into the build.
